Statement of management's responsibilities

It is the responsibility of management to prepare financial statements for each financial year which present fairly, in all material respects, the state of affairs of National Information and Communication Technology Company Limited (the 'Company') as at the end of the financial year and of the operating results of the Company for the year. It is also management's responsibility to ensure that the Company keeps proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company. They are also responsible for safeguarding the assets of the Company.

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards (IFRS). This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error, selecting and applying appropriate accounting policies, and making accounting estimates that are reasonable in the circumstances.

Management accepts responsibility for the annual financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgements and estimates, in conformity with the IFRS. Management is of the opinion that the financial statements present fairly, in all material respects, the state of the financial affairs of the Company and of its operating results. Management further accepts responsibility for the maintenance of accounting records which are relied upon in the preparation of the financial statements, as well as adequate systems of internal financial control.

Nothing has come to the attention of management to indicate that the Company will not remain a going concern for at least the next twelve months from the date of this statement.

Report on the financial statements

We have audited the accompanying financial statements of National Information and Communication Technology Company Limited (the 'Company'), which comprise the statement of financial position as at September 30, 2016, and the statement of profit or loss and other comprehensive income, statement of changes in shareholder's equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the International Financial Reporting Standards ('IFRS') and for such internal control as management determines necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatements of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as at September 30, 2016, and financial performance and cash flows for the year then ended in accordance with the IFRS.

(Expressed in Trinidad and Tobago dollars)

1. Incorporation and principal activity

The National Information and Communication Technology Company Limited (the Company) was incorporated in the Republic of Trinidad and Tobago on July 20, 2009 and is wholly owned by the Government of the Republic of Trinidad & Tobago. The Registered office of the Company is situated at #52 Pembroke Street, Port of Spain.

The principal activity of the organisation is the execution and administration of enterprise wide Information and Communication Technology (ICT) Strategies and Programmes for Ministry Departments, Division and Agencies to ensure more effective alignment, coordination, integration, consistency, security, interoperability and cost effectiveness across government for ICT related projects and initiatives.

These financial statements were approved for issue by the Board of Directors on January 4, 2017.

2. Application of new and revised International Financial Reporting Standards ('IFRS')

2.1 New IFRS and amendments to IFRS that are mandatorily effective for the current year

In the current year, the Company did not have any amendments to IFRS and new Interpretations issued by the International Accounting Standards Board ('IASB') that are mandatorily effective for an accounting period that begins on or after 1 October 2015.

2.2 New and revised IFRS in issue but not yet effective

The Company has not applied the following new and revised IFRS that have been issued but are not yet effective:

•	IFRS 9	Financial instruments ³
•	IFRS 14	Regulatory Deferral Accounts ¹
•	IFRS 15	Revenue from Contracts with Customers ³
•	IFRS 16	Leases ⁴
•	Amendments to IFRS 11	Accounting for Acquisitions of Interest in Joint Operations ¹
•	Amendments to IAS 16 and IAS 38	Clarification of Acceptable Methods of Depreciation and Amortization ¹
•	Amendments to IFRS	Annual Improvements to IFRS 2012-2014 ¹
•	Amendments to IAS 1	Disclosure Initiative ¹
•	Amendments to IAS 27	Equity Method in Separate Financial Statements ¹
•	Amendments to IAS 12	Recognition of Deferred Tax Assets Unrealised Losses ²
•	Amendments to IAS 7	Disclosure initiative ²
•	Amendments to IFRS 2	Classification and Measurement of Share-based

- ¹ Effective for annual periods beginning on or after 1 January, 2016, with earlier application permitted.
- ² Effective for annual periods beginning on or after 1 January, 2017, with earlier application permitted.
- ³ Effective for annual periods beginning on or after 1 January, 2018, with earlier application permitted.
- ⁴ Effective for annual periods beginning on or after 1 January, 2019, with earlier application permitted.

Notes to the financial statements
For the year ended September 30, 2016
(Expressed in Trinidad and Tobago dollars)

2. Application of new and revised International Financial Reporting Standards ('IFRS') (continued)

2.2 New and revised IFRS in issue but not yet effective (continued)

• IFRS 9 Financial Instruments

IFRS 9 issued in November 2009 introduced new requirements for the classification and measurement of financial assets. IFRS 9 was subsequently amended in October 2010 to include requirements for the classification and measurement of financial liabilities and for derecognition, and in November 2013 to include the new requirements for general hedge accounting. Another revised version of this IFRS was issued in July 2014 mainly to include a) impairment requirements for financial assets and b) limited amendments to the classification and measurement requirements by introducing 'fair value through other comprehensive income' (FVTOCI) measurement category for certain simple debt instruments.

Key requirements of IFRS 9:

- all recognised financial assets that are within the scope of IAS 39 Financial Instruments: Recognition and Measurement are required to be subsequently measured at amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are measured at FVTOCI. All other debt investments and equity investments are measured at their fair value at the end of the subsequent accounting periods. In addition, under IFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognised in profit or loss.
- with regard to the measurement of financial liabilities designated as at fair value through profit or loss, IFRS 9 requires that the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is presented in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value attributable to a financial liability's credit risk are not subsequently reclassified to profit or loss. Under IAS 39, the entire amount of the change in the fair value of the financial liability designated as fair value through profit or loss is presented in profit or loss.
- in relation to the impairment of financial assets, IFRS 9 requires an expected loss model, as opposed to an incurred loss model under IAS 39. The expected loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised.

Notes to the financial statements
For the year ended September 30, 2016
(Expressed in Trinidad and Tobago dollars)

2. Application of new and revised International Financial Reporting Standards ('IFRS') (continued)

2.2 New and revised IFRS in issue but not yet effective (continued)

• IFRS 9 Financial Instruments (continued)

the new general hedge accounting requirements retain three types of hedge accounting mechanisms currently available in IAS 39. Under IFRS 9, greater flexibility has been introduced to the types of transactions eligible for hedge accounting, specifically broadening the types of instruments that qualify for hedging instruments and the types of risk components of non-financial items that are eligible for hedge accounting. In addition, the effectiveness test has been overhauled and replaced with the principle of an 'economic relationship'. Retrospective assessment of hedge effectiveness is also no longer required. Enhanced disclosure requirements about an entity's risk management activities have also been introduced.

The directors of the Company anticipate that the application of IFRS 9 in the future may have a material impact on the amounts reported in respect of the Company's financial assets and liabilities. However it is not practicable to provide a reasonable estimate of the effect of IFRS 9 until the Company undertakes a detailed review.

• IFRS 14 Regulatory Deferral Accounts

IFRS 14 specifies the accounting for regulatory deferral account balances that arise from rate-regulated activities. The Standard is available only to first-time adopters of IFRSs who recognised regulatory deferral account balances under their previous GAAP. IFRS 14 permits eligible first-time adopters of IFRSs to continue their previous GAAP rate-regulated accounting policies, with limited changes, and requires separate presentation of regulatory deferral account balances in the statement of financial position and statement of profit or loss and other comprehensive income. Disclosures are also required to identify the nature of, and risk associated with, the form of rate regulation that has given rise to the recognition of regulatory deferral account balances.

The directors of the Company do not anticipate that the application of these amendments will have a significant impact on the Company's financial statements.

• IFRS 15 Revenue from Contracts with Customers

In May 2014, IFRS 15 was issued which establishes a single comprehensive model for entities to use in accounting for revenue from contracts with customers. IFRS 15 will supersede the current revenue recognition guidance including IAS 18 Revenue, IAS 11 Construction Contracts and the related Interpretations when it becomes effective.

The core principle of IFRS 15 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the Standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation

Notes to the financial statements
For the year ended September 30, 2016
(Expressed in Trinidad and Tobago dollars)

2. Application of new and revised International Financial Reporting Standards ('IFRS') (continued)

2.2 New and revised IFRS in issue but not yet effective (continued)

• IFRS 15 Revenue from Contracts with Customers (continued)

Under IFRS 15, an entity recognizes revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customer. Far more prescriptive guidance has been added in IFRS 15 to deal with specific scenarios. Furthermore, extensive disclosures are required by IFRS 15.

On June 20, 2016, the IASB issued amendments in Clarifications to IFRS 15 'Revenue from Contracts with Customers' which addressed three of the five topics identified (identifying performance obligations, principal versus agent considerations, and licensing) and provide some transition relief for modified contracts and completed contracts. The IASB concluded that it was not necessary to amend IFRS 15 with respect to collectability or measuring non-cash consideration. In all its decisions, the IASB considered the need to balance helping entities with implementing IFRS 15 and not disrupting the implementation process.

The directors of the Company anticipate that the application of IFRS 15 in the future may have a material impact on the amounts reported and disclosures made in the Company's financial statements. However, it is not practicable to provide a reasonable estimate of the effect of IFRS 15 until the Company performs a detailed review.

IFRS 16 Leases

IFRS 16 specifies how an IFRS reporter will recognise, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring lessees to recognise assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value. Lessors continue to classify leases as operating or finance, with IFRS 16's approach to lessor accounting substantially unchanged from its predecessor, IAS 17.

The directors of the Company anticipate that the application of IFRS 16 in the future may have a material impact on the amounts reported and disclosures made in the Company's financial statements. However, it is not practicable to provide a reasonable estimate of the effect of IFRS 16 until the Company performs a detailed review.

• Classification and Measurement of Share-based Payment Transactions (Amendments to IFRS 2)

Amendments to IFRS 2 Share-based Payment clarify the standard in relation to the accounting for cash-settled share-based payment transactions that include a performance condition, the classification of share-based payment transactions with net settlement features, and the accounting for modifications of share-based payment transactions from cash-settled to equity-settled.

The directors of the Company do not anticipate that the application of these amendments will have a significant impact on the Company's financial statements.

Notes to the financial statements
For the year ended September 30, 2016
(Expressed in Trinidad and Tobago dollars)

2. Application of new and revised International Financial Reporting Standards ('IFRS') (continued)

2.2 New and revised IFRS in issue but not yet effective (continued)

Amendments to IFRS 11 Accounting for Acquisitions of Interest in Joint Operations

The amendments to IFRS 11 provide guidance on how to account for the acquisition of a joint operation that constitutes a business as defined in IFRS 3 Business Combinations. Specifically, the amendments state that the relevant principles on accounting for business combinations in IFRS 3 and other standards (e.g. IAS 36 Impairment of Assets regarding impairment testing of a cash-generating unit to which goodwill on acquisition of a joint operation has been allocated) should be applied. The same requirements should be applied to the formation of a joint operation if and only if an existing business is contributed to the joint operation by one of the parties that participate in the joint operation.

A joint operator is also required to disclose the relevant information required by IFRS 3 and other standards for business combinations.

The amendments to IFRS 11 apply prospectively for annual periods beginning on or after 1 January 2016. The directors of the Company do not anticipate that the application of these amendments to IFRS 11 will have a material impact on the Company's financial statements.

Amendments to IAS 16 and IAS 38 Clarification of Acceptable Methods of Depreciation and Amortization

The amendments to IAS 16 prohibit entities from using a revenue-based depreciation method for items of property, plant and equipment. The amendments to IAS 38 introduce a rebuttable presumption that revenue is not an appropriate basis for amortization of an intangible asset. This presumption can only be rebutted in the following two limited circumstances;

- a) when the intangible asset is expensed as a measure of revenue; or
- b) when it can be demonstrated that revenue and consumption of the economic benefits of the intangible asset are highly correlated.

The amendments apply prospectively for annual periods beginning on or after 1 January 2016. Currently, the Company uses the straight-line method for depreciation and amortisation of its property, plant and equipment, and intangible assets respectively. The directors of the Company believe that the straight-line method is the most appropriate method to reflect the consumption of economic benefits inherent in the respective assets and accordingly, the directors of the Company do not anticipate that the application of these amendments to IAS 16 and IAS 38 will have a material impact on the Company's financial statements.

Notes to the financial statements
For the year ended September 30, 2016
(Expressed in Trinidad and Tobago dollars)

2. Application of new and revised International Financial Reporting Standards ('IFRS') (continued)

2.2 New and revised IFRS in issue but not yet effective (continued)

Annual Improvements 2012 – 2014

The Annual Improvements to IFRS 2012-2014 include a number of amendments to various IFRS, which are summarised below.

IFRS 5 — Adds specific guidance in IFRS 5 for cases in which an entity reclassifies an asset from held for sale to held for distribution or vice versa and cases in which held-for-distribution accounting is discontinued.

IFRS 7 — Additional guidance to clarify whether a servicing contract is continuing involvement in a transferred asset, and clarification on offsetting disclosures in condensed interim financial statements.

IAS 19 — Clarify that the rate used to discount post-employment benefit obligations should be determined be reference to market yields at the end of the reporting period on high quality corporate bonds. The assessment of the depth of for high quality corporate bonds should be at the currency level (i.e. the same currency as the benefits are to be paid). For currencies for which there is no deep market in such high quality corporate bonds, the market yields at the end of the reporting period on government bonds denominated in that currency should be used instead.

IAS 34 — Clarify the meaning of 'elsewhere in the interim report' and require a cross-reference.

The directors of the Company do not anticipate that the application of these amendments will have a significant impact on the Company's financial statements.

• Amendment to IAS 1: Disclosure Initiative

Amendments were made to IAS 1 Presentation of Financial Statements to address perceived impediments to preparers exercising their judgment in presenting their financial reports by making the following changes:

- clarification that information should not be obscured by aggregating or by providing immaterial information, materiality considerations apply to the all parts of the financial statements, and even when a standard requires a specific disclosure, materiality considerations do apply;
- b) clarification that the list of line items to be presented in these statements can be disaggregated and aggregated as relevant and additional guidance on subtotals in these statements and clarification that an entity's share of OCI of equity-accounted associates and joint ventures should be presented in aggregate as single line items based on whether or not it will subsequently be reclassified to profit or loss;
- c) additional examples of possible ways of ordering the notes to clarify that understandability and comparability should be considered when determining the order of the notes and to demonstrate that the notes need not be presented in the order so far listed in paragraph 114 of IAS 1.

The directors of the Company do not anticipate that the application of these amendments will have a significant impact on the Company's financial statements.

Notes to the financial statements
For the year ended September 30, 2016
(Expressed in Trinidad and Tobago dollars)

2. Application of new and revised International Financial Reporting Standards ('IFRS') (continued)

2.2 New and revised IFRS in issue but not yet effective (continued)

Amendments to IAS 27: Equity Method in Separate Financial Statements

Amendments were made to IAS 27 Separate Financial Statements to permit investments in subsidiaries, joint ventures and associates to be optionally accounted for using the equity method in separate financial statements. Consequently, an entity is permitted to account for these investments either:

- (i) at cost; or
- (ii) in accordance with IFRS 9 (or IAS 39); or
- (iii) using the equity method.

This is an accounting policy choice for each category of investment.

• Amendments to IAS 12, (Recognition of Deferred Tax Assets for Unrealised Losses)

Unrealised losses on debt instruments measured at fair value and measured at cost for tax purposes give rise to a deductible temporary difference regardless of whether the debt instrument's holder expects to recover the carrying amount of the debt instrument by sale or by use.

The carrying amount of an asset does not limit the estimation of probable future taxable profits.

Estimates for future taxable profits exclude tax deductions resulting from the reversal of deductible temporary differences.

An entity assesses a deferred tax asset in combination with other deferred tax assets. Where tax law restricts the utilisation of tax losses, an entity would assess a deferred tax asset in combination with other deferred tax assets of the same type

The directors of the Company do not anticipate that the application of these amendments will have a significant impact on the Company's financial statements.

• Amendments to IAS 7, Disclosure Initiative

Amends IAS 7 Statement of Cash Flows to clarify that entities shall provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities.

The directors of the Company do not anticipate that the application of these amendments will have a significant impact on the Company's financial statements.

Notes to the financial statements
For the year ended September 30, 2016
(Expressed in Trinidad and Tobago dollars)

3. Summary of significant accounting policies

a. Statement of compliance

These financial statements have been prepared in accordance with the International Financial Reporting Standards (IFRS).

b. Basis of preparation

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and IFRS Interpretation Committee (IFRS IC) applicable to companies reporting under IFRS. The financial statements are prepared under the historical cost convention.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

For financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that can be accessed at the measurement date:
- Level 2 inputs are inputs, other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from quoted prices) and
- Level 3 inputs are unobservable inputs for the asset or liability.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 4.

c. Functional and reporting currency

The financial statements of the Company are presented in the currency of the primary economic environment in which the entity operates (its functional currency). For the purpose of the financial statements, the results and financial position of the Company are expressed in Trinidad and Tobago dollars, which is the functional currency of the Company and the presentation currency for the financial statements.

In preparing the financial statements of the Company, transactions in currencies other than the Company's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date.

Notes to the financial statements
For the year ended September 30, 2016
(Expressed in Trinidad and Tobago dollars)

3.

Summary of significant accounting policies (continued)

d. Property, plant and equipment

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located, and capitalized borrowing costs. Purchased software that is integral to the functionality of the related equipment is capitalized as part of the equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment.

The gain or loss on disposal of property, plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of the property, plant and equipment, and is recognized net within other income/other expenses in profit or loss.

The cost of replacing a component of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced component is derecognized. The costs of the day-to-day servicing of property, plant and equipment are recognized in profit or loss as incurred. Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed and if a component has a useful life that is different from the remainder of that asset, that component is depreciated separately.

Depreciation is calculated using the reducing balance basis (buildings straight line basis) over the estimated useful lives of each item of property, plant and equipment at the following rates:

ICT Equipment 25%
Furniture and fittings 12.5%
Office equipment 12.5%
Motor vehicles 25%
Buildings 2%

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate

e. Financial assets

Classification:

The Company classifies its financial assets in the following categories, at fair value through profit and loss, loans & receivables, held to maturity, and available for sale. The classification depends on the nature of the asset and the purpose for which the assets were acquired. Management determines the classification of its financial assets at initial recognition.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables (including trade and other receivables, bank balances and cash) are measured at amortised cost using the effective interest rate method.

Notes to the financial statements
For the year ended September 30, 2016
(Expressed in Trinidad and Tobago dollars)

3. Summary of significant accounting policies (continued)

e. Financial assets (continued)

Available-for-sale financial assets

Available-for-sale financial assets are those intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in interest rates, exchange rates or equity prices or that are not classified as loans and receivables, held-to-maturity investments or financial assets at fair value through profit or loss.

Financial assets at fair value through profit or loss

This category includes financial assets designated by the Company as fair value through profit or loss upon initial recognition.

Held-to-maturity

Held-to-maturity investments are financial assets with fixed or determinable payments and fixed maturity dates where management has the positive intention and the ability to hold to maturity.

Recognition:

Financial assets are initially recognised at fair value plus transactions costs except for financial assets at fair value through profit and loss, which are recognized at fair value. Transaction costs for financial assets at fair value through profit and loss are recognised immediately as expenses. Regular purchases and sales of financial assets are recognised on the trade date – date on which the Company commits to purchase or sell the asset.

Measurement:

Financial Assets are initially recognised at fair value plus transaction costs except for financial assets at fair value through profit and loss, which are recognised at fair value. Transaction costs for financial assets at fair value through profit and loss are recognised immediately as expenses.

Derecognition:

Financial assets are derecognised when the contractual right to receive the cash flows from these assets have ceased to exist or the assets have been transferred and substantially all the risks and rewards of ownership of the assets are also transferred.

f. Accounts receivable

Accounts receivable are amounts due from customers for services performed in the ordinary course of business and are stated at cost net of any specific provision established to recognise anticipated losses for bad and doubtful debts. Bad debts are written off during the year in which they are identified. Accounts Receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method less provision for impairment.

g. Cash and cash equivalents

For the purposes of the statement of cash flows, cash and cash equivalents comprise cash at hand and in bank.

h. Share capital

The share capital consists entirely of the capital investment by the Government of the Republic of Trinidad and Tobago for which consideration of \$5,000,010 was paid and this is classified as equity.

Notes to the financial statements
For the year ended September 30, 2016
(Expressed in Trinidad and Tobago dollars)

3. Summary of significant accounting policies (continued)

h. Share capital (continued)

During the fiscal year 2015 and 2016, there was a transfer of capital investment in accordance with Cabinet decision dated April 23, 2009 of vested assets, which instructed the Company to treat said assets as share capital. The Company has recognised as a share application, the transfer of two motor vehicles and a building for use in the operations of the Company. The amount of this capital investment is based on the fair value of the assets as valued by an external independent valuator at the date of transfer.

i. Borrowing Costs

Borrowing costs are recognised in profit and loss in the period in which they are incurred.

j. Accounts payable

Trade and other payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers and are recognised initially at fair value and subsequently measured at amortised cost. Accounts payable are classified as current liabilities if payment is due within one year or less.

k. Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. The unwinding of finance cost is recognised as finance cost.

Revenue recognition

Unconditional grants related to the on-going operations of the Company are recognised when the amount can be reliably measured; when it is probable that future economic benefits will flow to the Company.

Subventions that compensate the Company for expenses incurred are recognised as revenue in the statement of profit or loss on a systematic basis in the same years in which the expenses are incurred.

Grants that compensate the Company for the cost of an asset are recognised in the statement of profit or loss as revenue on a systematic basis over the life of the asset.

All other revenue is recorded on an accruals basis.

Subvention Revenue

Grants from the Government of the Republic of Trinidad and Tobago ("GORTT") to fund the operations of the Company and GORTT ICT-wide projects.

Project Income

This income pertains to project management fees and consulting fees for ICT procurement and project management consultations performed by iGovTT for GORTT and state entities.

Other Income

Income from various sources; ICT Symposium, Interest Income, Tender Fees, and other sources of income.

Notes to the financial statements
For the year ended September 30, 2016
(Expressed in Trinidad and Tobago dollars)

3. Summary of significant accounting policies (continued)

m. Operating leases

The leases entered into by the Company which do not transfer substantially all the risk and benefits of ownership are classified as operating leases. The total payments made under operating leases are charged to other operating expenses in income on a straight-line basis over the period of the lease.

When an operating lease is terminated before the lease period has expired, any payment required to be made to the lessor by way of penalty is recognised as an expense in the period in which termination takes place.

n. Impairment

The carrying amounts of the Company's assets are reviewed at each reporting date to determine whether there is any indication of impairment. If such an indication exists, the asset's recoverable amount is estimated.

An impairment loss is recognised whenever the carrying amount of an asset or its cashgenerating unit exceeds its recoverable amount. Impairment losses are recognised in the statement of profit or loss.

The recoverable amount of other assets is the greater of their net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

o. Taxation

Income tax expense comprises current and deferred tax. Income tax expense is recognised in the statement of profit or loss except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or subsequently enacted at the reporting date, and any adjustment to tax payable in respect of previous years. Current tax payable also includes any tax liability arising from the declaration of dividends.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or subsequently enacted at the reporting date.

Deferred tax asset and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

Notes to the financial statements
For the year ended September 30, 2016
(Expressed in Trinidad and Tobago dollars)

3. Summary of significant accounting policies (continued)

o. Taxation (continued)

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

p. Comparative information

Where necessary comparative figures have been adjusted to conform to changes in presentation in the current year. These changes have no effect on the profit after tax of the Company for the previous year.

q. Borrowings

Borrowings are initially measured at transaction price (that is the present value of cash payable to the lender, including transaction costs). Borrowings are subsequently stated at amortised cost. Interest expense is recognized on the basis of the effective interest rate method and is included in finance costs.

r. Government subvention

Grants from the Government of the Republic of Trinidad and Tobago are recognised at their fair value where there is a reasonable assurance that the grant will be received and the National Information and Communication Technology Company Limited will comply with all the attached conditions. Grants that contain no vesting conditions are recognized immediately in the statement of profit or loss.

Grants related to recurrent costs are deferred in liabilities and recognised in the statement of profit or loss over the period necessary to match them with the costs they are intended to compensate.

Notes to the financial statements
For the year ended September 30, 2016
(Expressed in Trinidad and Tobago dollars)

4. Critical accounting estimates and judgements in applying accounting policies

Use of estimates and judgements

The preparation of these financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. These estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimates are revised and in any future years affected. Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

Income taxes

Estimates are required in determining the charge for income taxes. There are some transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Company recognises liabilities for anticipated tax issues based on estimates of whether additional taxes will be due.

Where the final outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax liabilities in the period in which such determination is made. The organisation believes that where the final outcome on the judgement areas of expected cash flows differ by 10% from management estimates the organisation will need to:

- Increase the income tax liability and deferred tax liability if unfavourable
- Decrease the income tax liability and deferred tax liability if favourable

Provisions

The recognition of provisions involves assumptions about the probability, amount and timing of an outflow of resources embodying economic benefits. A provision is recognised to the extent that an outflow of resources embodying economic benefits is probable and a reliable estimate can be made.

Contingent liabilities

Management applies its judgement to the facts and advice it receives from its attorneys, advocates and other advisors in assessing if an obligation is probable, more likely than not, or remote. Such judgement is used to determine if the obligation is recognised as a liability or disclosed as a contingent liability.

Revenue

The organisation recognises revenue when the amount of revenue can be reliably measured and when it is probable that future economic benefit will flow to the organisation. Where the funding or income earned differs by 10% of management estimates the amount of revenue recognised in the year would be:

- Increased by the proportionate amount of the estimate increase or
- Decreased by the proportionate amount of the estimate decrease

For the year ended September 30, 2016
(Expressed in Trinidad and Tobago dollars)

10. Loan and borrowings

	2016	2015
	\$	\$
Current loan		16,190,371

This represents the balance on the loan from Scotia Trust and Merchant Bank Trinidad and Tobago Limited for \$80,951,856, to finance the e-Cal project related expenditure. Interest is charged at a fixed rate of 3.25% per annum and is payable in 10 equal, half-yearly installments, commencing December 6, 2011. The loan is secured by a guarantee from the Government of the Republic of Trinidad and Tobago dated October 1, 2010. Fair value in loan and borrowings is the same as disclosed above. The loan facility was fully repaid in June 2016.

11. Accounts payable

	2016	2015
	\$	\$
Trade payables	2,583,472	4,420,712

Other payables	1,270,389	1,282,098
Balance at September 30	43,685,177	10,331,730

Provision for legal claim

This provision is prescribed following the advice from external counsel where the likelihood exists that an alleged breach of employment contract will not be resolved in the company's favour. This breach occurred since July 2012 and was filed in 2014. It is anticipated that it will be resolved during Fiscal 2017. The estimated settlement to the claimant is \$571,296.

12. Government subvention

	2016	2015
	\$	\$
Balance at October 1	-	-
Subventions received during the year for iGovTT	36,381,500	126,585,786
Subventions received during the year for ttConnect (Note 21)	12,300,000	11,714,214
Recognised during the year	(48,681,500)	(138,300,000)
Balance at September 30		

Funding for the operations of the Company is provided via Government subvention. During the year the Company received subventions for recurrent expenditure in the sum of \$48,681,500 for the year ended September 30, 2016 (2015: \$138,300,000).

Notes to the financial statements

Microsoft agreement	7,068,364	31,494,747
	33,430,683	56,367,048

A loan was taken from Scotia Trust and Merchant Bank Limited for \$80,951,856 to finance the e-Cal project in 2011. This loan is secured by a guarantee from the GORTT dated October 1, 2010.

Consequently, the Ministry of Education is required to fund the repayment of the loan. The Company received \$16,422,039 from the Ministry of Education for the year ended September 30, 2016 (2015: \$17,124,353). This included \$231,668 (2015: \$933,982) received as a reimbursement for the related interest expense on the loan. This loan was fully repaid in June 2016.

14. Operating leases

Non-cancellable operating lease rentals are payable as follows:

	2016	2015
	\$	\$
Less than one year	457,392	457,392
Between one and five years	1,829,568	1,829,568
	2,286,960	2,286,960

During the year \$447,593 (2015: \$392,400) was recognized as an expense in the statement of profit or loss in respect of operating leases.

Notes to the financial statements
For the year ended September 30, 2016
(Expressed in Trinidad and Tobago dollars)

15. Related parties

As the company is wholly owned by the Government of the Republic of Trinidad and Tobago (GORTT) and given its mandate, these are the significant transactions entered into with other government controlled entities (Ministries and State Agencies):

- Contracts for Procurement
- Contract Management for enterprise wide government agreements for government Ministries

Key management personnel

Key management personnel receive compensation in the form of short-term, employee benefits and post-employment benefits.

Key management personnel received compensation of \$10,541,727 (2015:\$9,991,994) for the year. Total remuneration is included in salaries and wages.

	2016	2015
Class	\$	\$

(Expressed in Trinidad and Tobago dollars)

17. Risk management

The risk management process is an integral part of management and it is vital in the health and safety of employees and members of the public.

Risk management structure

The Company is in the initial stages of setting up a risk management structure which is proposed to assign responsibilities to the following as outlined in the State Enterprises Performance Monitoring Manual:

Role of the Board

The Board of Directors, under the Companies Act 1995, directs the management of the business and affairs for the Company. The Board performs a set of specific functions aimed at meeting the mission of the Company. Its main responsibility lies in planning, monitoring and controlling the activities of the Company so as to ensure optimal utilization of its resources and the achievement of its corporate objectives. It ensures that policies and business decisions taken at the Board level are implemented.

The Board should also ensure that the policies and objectives of the Company reflect the policies of the Government of The Republic of Trinidad and Tobago (GORTT).

Members of the Board are required to familiarize themselves with the Company's and its various publics, in order to serve them effectively. It is the Board responsibility to ensure the Company is staffed by competent senior management personnel, sets standards and review managerial performance in the context of the Company's objectives.

Role of Internal Audit

Internal Audit is an independent, objective, assurance and consulting activity designed to add value and improve the Company's operations. It helps the Company to achieve its objectives by bringing in a systematic disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes.

Role of the Finance and Risk Committee

This Committee is appointed by the Board to act in an advisory capacity. The Committee's primary duties and responsibilities are to formulate and to recommend policies and procedures to the Board for approval; review on an ongoing basis policies and procedures in light of economic and business conditions to ensure relevancy to the Company and where needed make recommendations for Board approval.

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk
- Currency risk
- Interest risk

Derivative financial instruments are not presently used to reduce exposure to fluctuations in these risks.

Notes to the financial statements
For the year ended September 30, 2016
(Expressed in Trinidad and Tobago dollars)

17. Risk management (continued)

Credit risk

Management monitors exposure to credit risk on an on-going basis. The maximum exposure to credit risk is represented by the carrying amount of the financial asset in the statement of financial position. The maximum exposure to credit risk at year end was:

	2016	2015
	\$	\$
Trade receivables, net	10,982,872	23,758,362
Cash	133,459,415	135,375,355
Loan receivable		16,190,371
Balance at September 30	144,442,287	175,324,088
Credit risk		
The ageing of trade receivables at year end was:		
	2016	2015
	\$	\$
Current	461,854	7,225,204
1-30 days due	250,176	65,462
31-90 days due	54,024	9,625,682
Over 90 days due	11,654,370	7,415,195
Balance at September 30	12,420,424	24,331,543

Impairment losses in the amount of \$864,371 were recorded with respect to trade receivables in 2016 (2015: NIL).

Notes to the financial statements
For the year ended September 30, 2016

(Expressed in Trinidad and Tobago dollars)

17. Risk management (continued)

Liquidity risk

The Company manages its liquidity risk by maintaining cash to meet its cash obligations as they fall due. Further, the Company also maintains flexibility through established credit facilities with its Bankers.

The following are the contractual maturities of financial liabilities, including interest payments:

	Carrying amount	Contractual cash flows	Less than one year	More than one year
September 30, 2016	\$	\$	\$	\$
Accounts payable	43,685,177	43,685,177	43,685,177	
September 30, 2015				
Loans and Borrowings Accounts payable	16,190,371 10,331,730	16,591,589 10,331,730	16,591,589 10,331,730	<u>-</u>
	26,522,101	26,923,319	26,923,319	_

Market risk

Market risk arises in the normal course of business and encompasses the risk to earnings that arises from changes in foreign exchange rates, interest rates and equity prices.

a) Foreign currency risk

The Company does not incur significant foreign currency risk on purchases that are denominated in a currency other than the Trinidad and Tobago dollar. The currency giving rise to any risk is primarily the United States dollar.

The exchange rate of the United States dollar to the Trinidad and Tobago dollar at year end was as follows:

At September 30, 2016: TT\$6.74 At September 30, 2015: TT\$6.37

Sensitivity analysis:

The Company considered currency risk to be insignificant and accordingly has not performed a sensitivity analysis on the effect of a strengthening of the Trinidad and Tobago dollar against the United States dollar at year end.

Notes to the financial statements
For the year ended September 30, 2016
(Expressed in Trinidad and Tobago dollars)

17. Risk management (continued)

b) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates.

At year end, the interest rate profile of the Company's interest bearing instruments was:

	2016	2015
	<u> </u>	\$
Fixed rate instruments		
Financial assets Financial liabilities	133,459,415	135,375,355 (16,190,371)
Net exposure	133,459,415	119,184,984

Estimation of Fair values

Fair value amounts represent estimates of the arm's length consideration that would be currently agreed upon between knowledgeable and willing parties who are under no compulsion to act and is best evidenced by a quoted market price if one exists. The estimated fair value of the Company's financial instruments is based on the market prices and valuation methodologies.

18. Going concern

The Company's total assets exceeded its total liabilities by \$157,309,275 at the reporting date. At September 30, 2015 total assets had exceeded total liabilities by \$136,291,697. Without the continued support of the GORTT through subventions, the Company may not be able to continue as a going concern. However there is no evidence to suggest that this support will be withheld.

Notes to the financial statements
For the year ended September 30, 2016
(Expressed in Trinidad and Tobago dollars)

19. Operating costs

Operating costs are comprised of the expenses incurred by the Company in engaging service providers with respect to the physical infrastructure, software and maintenance services associated with the provision of ICT services to the GORTT for the following projects: - GovNeTT II, Single Electronic Window (SEW), Portal, Microsoft and Others.

	<u>2016</u> \$	<u>2015</u> \$
Project inflows		
iGovTT ttConnect	18,749,064 193,500	47,589,398 72,605
	18,942,564	47,662,003
Project outflows		
iGovTT	(26,312,256)	(74,577,846)
ttConnect	(354,329)	
	(26,666,585)	(74,577,846)
Net operating costs	(7,724,021)	(26,915,843)

20. Administrative expenses

The administrative expenses comprise of emoluments and general overhead expenses incurred by the Company from its core operations and support units in providing ICT services to the Government of the Republic of Trinidad & Tobago.

	2016	2015
	\$	\$
Emoluments	37,819,366	31,211,612
Depreciation	2,033,996	1,708,376

22. Events after the reporting date

- 1. Following the Government of the Republic of Trinidad and Tobago's Budget Presentation on October 5, 2015, the decision was taken to assign the ttConnect Unit to the Ministry of Rural Development. This would see the removal of ttConnect Unit from under the administration of the National Information and Communication Technology Company Limited. As at the issuance of these statements the transfer is pending.
- 2. Following the expiration of the last Microsoft Enterprise Agreement (MEA) on June 30, 2016, Cabinet approval was granted for the Government of the Republic of Trinidad and Tobago (GoRTT) through the Ministry of Public Administration and Communications (MPAC) to initiate the procurement process, on a sole selective basis for a new, lower cost MEA.

Cabinet by Minute Note No. 1628 dated October 20, 2016 mandated the Ministry of Public Administration and Communications (MPAC) to enter into a contract with iGovTT under the provisions of Section 20A (1) (c) of the Central Tenders Board Act, Chapter 71:91 to act on its behalf and provide procurement and contract management services in respect of the sole select award to Microsoft for an Enterprise Agreement (EA) for the period July 2016 to June 2019. The negotiation was successfully conducted with a final negotiated position of US\$4,248,261.45 per annum. The contract between Microsoft and the Company was signed on November 30, 2016. Subsequent to the signing, the Company has recognised the outstanding liability and income for the first year, prorating the related portion of the related expense and income for the period July to September 2016 in this fiscal.
